The Botanical Gardens encompasses a unique mix of flower gardens/floral exhibits and plant collections; plus vast acreage of native habitat and natural wetlands, which children love to learn about and explore. This summer, let the South Texas Botanical Gardens & Nature Center gift your child with a visual love of nature; understanding of our natural resources; conservation of our fragile environment; plus positive insights into stewardship of native habitats, bird and wildlife, and natural wetlands of this unique South Texas ecosystem. All sessions include adult instructors, door and outdoor studies and activities and take-home nature-related craft projects. Each day, campers will need sunscreen, hat, sunglasses and insect repellent.

Camp sessions are taught by former Middle-School and High School teacher Sandy Anderson, with three adult volunteers helping. 2016 is her third camp year at the Botanical Gardens.

Class maximum is 20 students each session.
