

## QUICKEST ROUTE

7/29/16

to the South Texas BOTANICAL GARDENS & NATURE CENTER:

---

Thank you to the Texas Department of Transportation (TxDOT) for improving far south side Corpus Christi roadways--it's all good news!

### *NOW:*

On **TX286** (Crosstown Extension), **overpasses are under construction**, so **soon** you won't have to stop all the way from downtown to the 286/Staples St. intersection! (This actually is the "long way around", but **when not under construction**, the quickest.)

Also, a ways west of us, at **FM2444/TX286**, roadway widening is in progress, and a small bridge is under construction.

SO, unless you like being behind dump trucks, construction equipment, experiencing flagging delays, orange/white barrels, or slow traffic, you may not want to take the above route for a while!

Instead, we suggest you **drive the most direct route** to the Botanical Gardens, **coming from the north using S. STAPLES STREET!**

Use this map for easy suggested routes,  
**IN GREEN.**

(If coming from downtown via 286,  
we suggest you either:

1. exit Saratoga and head east to Staples—just follow the green signs,
2. or exit S. Padre Island Drive EAST, then exit Staples & head south--follow the green signs.)

*(Call us if lost . . . 361-852-2100! ☺)*

**8545 S. Staples St, Corpus Christi**

Open 9am-6pm daily!
